## Patio awnings Terrea

# Design your outdoor space

Perfect protection from the sun is a must if you want to make your patio or balcony as cosy as your indoor space. With a Terrea awning, you gain a unique outdoor space for the whole family to work, relax or play.

The high-grade Terrea awnings give you the greatest design freedom with their attractive designs and frame colours. The clever accessories provide operating comfort and a boost to your quality of life.

Look forward to the highest level of quality and functional safety. We place a lot of value on longevity so you can enjoy your outdoor living experience for a long time.

Cassette awnings

## Relax outside with perfect weather protection

With your WAREMA cassette awning you can enjoy every sunny day exactly as you want. And not only in terms of pleasant temperatures. After all, your awning with compact cassette dimensions is also a real eye-catcher. No wonder with this design, the wide range of fabrics, frame colours and accessories for maximum comfort.

The closed cassette awning offers maximum protection against wind and weather. When retracted, the fabric, the articulated arm, the drive and all other parts of the construction rest inside the cassette and are perfectly shielded from the effects of bad weather.

Cubic cassette

### Cubic or oval – the right solution for every construction style

Do you like simple design and straight lines? Then you will love the cubic cassette shape. With its compact, rectangular construction, it fits seamlessly into modern architectural designs with flat or mono-pitched roofs.

Oval cassettes can be stylishly integrated into any facade and protects the fabric and articulated arms from the elements. This cassette awning ensures a harmonious, comfortable atmosphere. The compact look promises unobtrusive integration into the building facade and thus shades large areas whilst remaining stylish.

# High-grade features

## Cassette awnings

A cassette awning from WAREMA is an ideal sun shading system when shading is required for compact dimensions. The fabric disappears completely into the cassette and is therefore protected from wind and weather in every position when retracted. It also impresses with its attractive exterior and clever details.

### Terrea K70

	Width	Projection
Without valance roller blind	7.0 m	3.5 m
Without valance roller blind	5.5 m	4.0 m
With valance roller blind	6.0 m	3.5 m

#### 1 WMS Radio remote control

Convenient operation via hand-held transmitter, wall-mounted transmitter, smartphone or tablet

#### 2 Valance roller blind

Perfect protection, even with low-lying sun on the west side, for example

#### 3 Colour selection

Large selection of colours and designs for the frame and fabric

#### 4 LED strips

Integrated LED strips in cassette and/or front rail can be remote-controlled and dimmed

## Articulated arm awnings

Articulated arm awnings are the versatile all-rounders among the WAREMA shade providers. Thanks to the large selection of materials and fabrics and frame colours, it will harmoniously blend in with the style of your patio. The optional valance roller blinds ensure perfect protection – even when the sun is low in the sky.

<b>Terrea G60</b>	Width	Projection
<i>Without valance roller blind</i>	7.0 m	4.0 m
<i>With valance roller blind</i>	7.0 m	3.5 m

<b>Terrea H60</b>	Width	Projection
<i>Without valance roller blind</i>	7.0 m	4.0 m
<i>With valance roller blind</i>	7.0 m	3.5 m

### 5 Drive

Operated by crank or motor, optionally also by radio

### 6 Turning gear

This allows the awning to be adjusted to the angle of the sun with a simple turn of the crank

### 7 Radiant heater

Infrared quartz technology or Design radiant heater with tinted glass ceramic

### 8 Patio side screen

Protection against wind, low-lying sun and prying eyes

Articulated arm awnings

# Shade provider with style – for the optimum utilisation of your space

Open awning

Half-closed  
awning

Articulated arm awnings Terrea are the versatile all-rounders among the WAREMA shade providers. This is because Terrea awnings from WAREMA turn even narrow balconies and any architecturally demanding patio into shady feel-good spots due to their low space requirement.

Another advantage: the articulated arm awning Terrea is characterised by an extremely large projection so that even expansive balcony or patio outlines can be fully covered. For you, this means perfect sun shading in the smallest of spaces!

# The features make the difference

## Integrated, dimmable LED lighting

The integrated LED lighting in the front rail and/or cassette can be individually regulated thanks to the WMS dimmer. From bright light to atmospheric ambience lighting, all lighting variations for cosy summer evenings are possible.

## WMS Radio remote control

The entire Terrea awning programme is available with integrated WMS control and WMS Wind sensor which protects the awning from bad weather. The awning can be conveniently operated from anywhere via a hand-held transmitter, wall-mounted transmitter or, thanks to the WMS WebControl pro, easily via smartphone. With the optional WMS Wind sensor, the awning can be automatically retracted and is therefore protected against bad weather.

## UltraSeam™

UltraSeam™ technology minimises winding folds and printed patterns of acrylic fabric qualities. The special bonding process makes for significantly improved raising behaviour, and, thanks to a uniform fabric height, this is also the case in the seam and hem area. UltraSeam™ is almost invisible, especially when the sun is shining, and creates a uniform awning appearance.

### Feel-good atmosphere with the radiant heater element

For when you want to use your patio in the evening when the temperature drops: the Design radiant heater (2,200 Watts) with tinted glass ceramic allows you to enjoy longer evenings under your awning.

G60 H60 550 580 K60 K50 K70

### WAREMA fabric collection

The awning fabric from WAREMA fulfils the highest quality requirements and offers you over 300 designs at the same time, from unicoloured designs to classic block stripes, meaning there are no limits to your choice. For individual requirements, different qualities such as Perfora acrylic fabric or All Weather acrylic fabric are available to choose from.

G60 H60 550 580 K60 K50 K70

### Experience exclusive Colour Worlds

You can order the aluminium parts of your Terrea awning in more than 200 trendy colours, depending on the model.

- WAREMA Colour World
- Selected standard colours, Colour World optional   
(traffic white RAL 9016, white aluminium RAL 9006, anthracite iron mica effect W 4916)

Patio side screen

# The all-round protection solution for privacy on balconies and patios

## Enjoy the whole summer in peace

The weather doesn't just always come from above. When it's windy or the sun is low, a patio side screen offers optimal triple protection against wind, sun and prying eyes.

## Attractive, protected and sophisticated

With either a sloped or straight fabric, the patio side screens adapt ideally to the inclination of the patio roof or conservatory, for example.

When retracted in the cassette box, the fabric is optimally protected against dust and soiling. It is extremely easy to extend the patio side screen.
